

## Join us for a free breakfast seminar!

### **20<sup>th</sup> Anniversary Client Seminar Series**

As we celebrate 20 years of wonderful projects, terrific clients, and fabulous employees, we invite you to join us for our Anniversary Client Seminar Series, exploring topics that look to the future.

## Green and Complete Streets: The Future of Transportation Design

Increasing public demand for *both* improved transportation systems and protection of the environment are contradictory at best. However, in response to the signing of the U.S. Mayor's Climate Action Agreement, "sustainable transportation" is emerging, not as an oxymoron, but as viable green and complete streets initiatives in climate action plans of major cities across the country.

What are green and complete streets? What is Boston doing to address these issues? How are other cities tackling the problem? Join us for breakfast and an informative, interactive discussion with:

- D. Bryan Glascock, Commissioner, City of Boston Environment Department
- Vineet Gupta, Director of Policy and Planning, Boston Transportation Department
- Janet Attarian, AIA, LEED AP, Project Director, City of Chicago Streetscape and Sustainable Design Program.

The speakers will share information on Mayor Menino's Climate Action Leadership Committee's April report and it's impacts; Boston's Complete Streets initiative; and how Chicago's Green Alleys and Sustainable Streets programs are on the leading edge of green and complete streets. The speakers, along with Nitsch Engineering's Senior Project Manager, Jerry Blumenthal, PE, will conclude with a panel discussion moderated by Judith Nitsch, PE, LEED AP BD+C. Whether an alley, a drive, a public or private road, or a highway, these initiatives are having a major impact on transportation design.

### **Who Should Attend**

Landscape Architects, Urban Planners and Designers, Owners, State and Municipal Officials, and anyone who has an interest in how cities are planning and implementing sustainable transportation initiatives.

Please RSVP by May 14, 2010 to [mnee@nitscheng.com](mailto:mnee@nitscheng.com).

**Date:**  
Tuesday,  
May 18, 2010

**Location:**  
Hyatt Regency Hotel  
One Avenue de Lafayette  
Boston, MA  
[Directions](#)

**Program:**  
8:00 am - Continental Breakfast  
8:30 am - Presentations  
10:30 am - Conclusion

This program earns two AIA LUs.

Nitsch Engineering specializes in providing land surveying, civil engineering, transportation engineering, sustainable site consulting, planning, and GIS services. Founded in 1989, we have worked with a wide range of clients on major private development and public infrastructure projects in 17 states and five countries.
