

Join us for a free breakfast seminar!

Building better communities with you.

Confused about the continuing education requirements for your LEED credential? Need a GBCI CE hour or an AIA LU? Nitsch Engineering is pleased to present:

**LEED Update:
The Latest Developments in the GBCI LEED Program**

**Part I: The Credentialing Maintenance Program and
How to Maintain Your LEED Status**

Beth Holst, Vice President, Credentialing, of the Green Building Certification Institute will give an update on the latest developments from GBCI on credentialing and the Credentialing Maintenance Program (CMP). Beth will touch on how to maintain your LEED professional credential and specialty, finding educational opportunities, rules and requirements, and reporting. Beth will also include insight into GBCI LEED Project Reviewers and the process they go through to earn the title.

Beth's update will be followed by a panel discussion on how A/E/C firms are supporting and managing LEED credentialing. Panel members include:

- Kenneth Fisher, AIA, LEED AP, Principal, Architecture Studio Leader, Gensler Boston
- Nicole Holmes, PE, LEED AP BD+C, Project Manager, Nitsch Engineering
- Allan Montpelier, PE, LEED AP, Senior Vice President/ Managing Director, WSP Flack & Kurtz
- Mark Winslow, CMC, REM, LEED AP BD+C, Leader of Gilbane's National Sustainability Council, Gilbane
- Judith Nitsch, PE, LEED AP BD+C, Founding Principal and Chairman, Nitsch Engineering

Continued on second page...

Part II: A Briefing on LEED 2012

Beth Holst will discuss the development and evolution of the LEED rating system and updates for 2012. She will address efforts toward continuous improvement of the system through enhanced public/ stakeholder engagement, and the importance of an iterative, inclusionary process in the design, construction, and on-going operational performance in LEED projects. Key learning objectives include gaining understanding around:

- The future of LEED evolution toward zero impact
- USGBC's vision for what LEED projects should accomplish
- New credit categories and performance credits
- USGBC's Building Performance Partnership

Who Should Attend

All LEED accredited professionals who need credential maintenance and all professionals who need knowledge of LEED rating system updates.

Part II of this presentation earns: 1 GBCI CE hour and 1 AIA LU.

Please RSVP by May 13, 2011 to rsvp@nitscheng.com.
